Foundation: Introduction to LangChain - Python

# Shruti Bhere

AI Backend Engineer | Python & LangGraph Developer | Building Agentic LLM Applications & RAG Systems  
Mumbai Metropolitan Region

## Summary

I am a final-year B.Com student with a deep passion for software engineering and Artificial Intelligence. While my academic foundation is in commerce, giving me a strong grasp of business processes and logic, my core expertise lies in building scalable, AI-driven applications.

I don't just write code; I build systems. My journey has taken me from understanding basic scripting to architecting complex solutions involving Asynchronous Python, Vector Databases, and Agentic workflows.

---
